DMP Workshop Questions for Group Discussion

1. What are some of the biggest challenges that you have faced and/or questions that you have in relation to research data management?
2. Referring to the 'Portage *DMP Assistant* Categories & Questions' document, are there particular sections that present more questions and/or challenges for you? If so, please describe.
3. Again, referring to the 'Portage *DMP Assistant* Categories & Questions' document, are there any categories and/or specific questions with which you have struggled previously but have been successful in finding solutions? If yes, please share!
